# Community Board Data Needs Use Case

This use case details a scenario in which an issue came before your committee, district office, or council office, and you felt as though you needed more or more readily accessible information from the city in order to make an informed decision about it.

*Please respond by June 30, 2018.* Contact: Lindsay Poirier <lindsay@beta.nyc>

Name: _____

Email: _____

Phone Number: _____

Borough: _____

I am a...

_____ Community board member

_____ District office staff member

_____ City council staff member

_____ Other: _____

Community Board (if applicable): _____

City Council Office (if applicable): _____

Committee Name (if applicable): _____

## Submission

Describe what kind of data would have helped you contextualize this issue. _____

What challenges prevented you from using data resources to contextualize this issue?

_____ The data didn't exist.

_____ I didn't know if the data existed.

_____ The data hadn't been published in an accessible format.

_____ The data was not up-to-date.

_____ I didn't know how to access the data.

_____ The data would have been time-consuming to access and analyze.

_____ The data's geography made it irrelevant to addressing this issue.

_____ The data's collection frequency made it irrelevant to addressing this issue.

_____ The data was biased.

_____ Other: _____

Elaborate on the challenges you selected above. _____

Do you have any specific recommendations for how this data should be structured, formatted, or displayed? If so, describe them below. _____

## Permissions and Follow-up

Can we follow-up with you about this response?

_____ Yes

_____ No

Can we publish this response publicly?

_____ Yes

_____ No

Can we publish your name with the response?

_____ Yes

_____ No

Other Comments. _____
